ABOUT WORDS TO DEEDS

Since 2003, Words to Deeds has provided a unique forum that has evolved into a standard best practice for creating a true shift in the paradigm between criminal justice and mental health by fostering successful and ongoing collaboration among courts, criminal justice agencies, mental health professions, and governmental and nongovernmental agencies.

Mission

The leaders in criminal justice and mental health participating in this effort strive to end the criminalization of individuals with mental illness by supporting proven strategies that promote early intervention, access to effective treatments, a planned re-entry and the preservation of public safety.

Vision

A true shift in the paradigm between criminal justice and mental health will embody an effective jail diversion system that fosters a successful and ongoing exchange of information among courts, criminal justice agencies, mental health professions, governmental agencies, and nongovernmental organizations, to achieve a substantial positive change in the way individuals with mental illness are treated within our communities.
